DETAIL ACTION

Reasons For Allowance

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose an emergency lighting equipment with an automatic battery charge/discharge and monitoring system for providing emergency illumination when an alternating current (ac) power source stops providing an ac voltage, the emergency lighting equipment comprising an operating module control circuit coupled to the ac power source for receiving and re-transmitting the ac voltage and outputting an operating mode signal, a rectify/voltage-divide and voltage regulation circuit coupled to the operating mode control, a battery for holding electric energy, a main control unit coupled to the battery, the rectify/voltage-divide and voltage regulation circuit and the operating mode control circuit for receiving the operating mode signal and determining if the ac power source still provides an ac voltage according to the dc voltage and charging or discharging the battery accordingly, and discharging the battery if the ac power source has provided an ac voltage continuously for a preset period of time during which there is no battery discharge, and an illuminating apparatus coupled to the main control unit and the battery, wherein the illuminating apparatus is triggered when the battery discharges and the illuminating apparatus is shutdown by the main control unit when the battery is over-discharged as required in claim 1.
3. The remaining dependent claims are allowable for at least above reason.
4. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure. Crass (US Pat. 6,441,584) discloses charge maintain system for lead-acid battery. Shih et al. (US Pat. 6,255,744) discloses backup power device and applications thereof. Edwards et al. (US Pat. 5,471,114) discloses fail-safe uninterruptable lighting system. None of cited prior arts stands alone or combination with others discloses all limitation required in claim invention.
